Dr. Fittz's skill in Mechanical Dentistry can be seen at their office, specimens of which took the first Premium and Diploma at the United States wair in 1857. Dr. Wilson has been treating aching teeth successfully for the last fave years by destroying the nerve without pain, filling the fange and crown with gold, rest ring the tooth to its natural shape, and meking it as useful as before decay. Do not have your teeth extracted until you are certain they cannot be saved.—More than fifty per cent, of the teeth usually extracted can be made useful through life. We are daily treating and filling teeth of this class that comes in to be extracted. In no case do we disfigure a tooth by filing to fill it, using other and better means than the Indiscriminate use of the file. Any tooth can be filled with gold that is worthditing at all. We use, when requested, a local anesthesia to prevent plan in extracting teeth. All operations warranted as represented, and terms as ilberal as any good Dentist can afford.

AN ATTEMPT AT ROBBERY FRUSTRATED. - The Bedford Democrat states that Mr. Ambrose Kern, amounts to 157,855, with 28,800 in pens, which of Lawrence county, Ind., recently purchased several thousand hogs in Monroe county-a fact which was generally known. On Wednesday evening, when he took the cars at Bedford for Bloomington, several strange persons, entirely anknown to him, got on the cars with him, and lenty of vacant scats elsewhere. His attention eing directed to the large amount of money with | ing, in regard to the market and weights, is from which he was going to pay for his hogs, some of the gang around him stole his revolver from his breast pocket, thus disarming him with the purpose doubtless to rob him on the way that night into the country, some four miles, where he was to meet the persons, and pay them for their hogs, which had been collected in that place. He soon discovered the loss of his revolver, and made diligent search for it, but could not gain any information of the persous that took it. Finding him self so closely pressed by these sharks, he waited till morning before leaving Bloomington.

FORGERY AND EMBEZZLEMENT BY A LAWYER. - We eard some weeks since of a very unfortunate circumstance, involving the fair name and reputation of a gentleman who has heretofore sustained an honorable position in the legal profession of our city. It is charged that about the first of November, he forged the name of a leading city ouse, for the sum of \$510. Legal proceedings vero about being instituted, but upon his paying the money they were discontinued. Only a few days since this individual left the city, and since hen it has been ascertained that he has embezzeled between two and three thousand dollars, the property of a widow lady, for whom he had been acting as attorney. Indeed, but a day or two before leaving, he had her pay him a fee of ity dollars for legal services.

JEFFERSONVILLE RATLEGAD-CHANGE OF TIME TABLE .- To-day, December 24, a new time table ses into effect on the Jeffersonville railroad .-Hereafter, trains will leave as follows:

They will arrive at Jeffersonville at the follow g hours: ndianapolis and Cincinnati express... 2:20 P. M.

We are satisfied that these new running arangements will prove more convenient to the public. Dr. Crothers, the superintendent, is eu itled to the thanks of the community.

THE CONCERT TO-NIGHT. - The annunciation of a concert by that accomplished vocalist, Miss Bertha Scheidler, has created no small degree of sensation in the musical circles of our city. She is a lady of fine attainments, with a rich voice, and only lacks a little case, grace, and self-possession apon the stage, to render her a model, sweet singer. The programme has been selected with much care and taste. Miss Scheidler will be assisted by several gentlemen of the city, justly nusical talents occurs to night, at the Masonic Temple.

Dr. Ives will not lecture in this city, as we tated vesterday, on "the Importance and Utility of the Catholic Literary Association." He will ecture on "Private Interpretation Exemplified." This subject has been the grent bone of contention and has given rise to all the difficulties between Catholics and Protestants. If Dr. Ives car clear up this matter, his ensuries will not again charge him with being crazy on account of his exercising his free will and private judgment in

STAR CONCERT .- Our citizens are to be favored with a series of very delightful musical entertain nents during the remainder of the week. The Star Troupe commence concertizing to-night at Concert Hall, on Fifth street. The different members are ladies and gentlemen of considerable eputation, and will afford all who hear them, iufinite pleasure and amusement.

We advise our music-loving citizeus to attend these concerts. They will unquestionably be

HUDSON HALL .- This fine establishment grows in popular favor, and is fast becoming the most fashionable place of resort in the city. No wonder, when its proprietors (Messrs. A PROFESSOR IN TROUBLE .- We understand that the board of school trustees, at their session Monday night, resolved to dispense with the services of the principal of the Male High School. The distinguished Professor has been implicated in a liason, which, it was thought, would prove him unqualified for further educational duties.

If it is not altogether foreign to the subject, we may venture to remark, that not only is Hurley's quick yeast the purest and best in use, but in point of economy, beyond all its com-

[Correspondence of the Louisville Conrier.] Mr. J. S. Hart, the Sculptor.

Editors Louisville Courier: But few Americans, and no Kentuckian who visits the beautiful city of Floreucc, Italy, fail to visit the studio of the distinguised American sculptor, Mr. Hart, of Lexington, Ky. There is usually attendant upon introductions. There is an atmosphere of whole-souled Kentuckianisun around Mr. Hart, to breath which is to feel yourself in the hands of a true friend. His open, frank, and courteous unsneers, his agreeable and versatile conversational powers, his correct appreciation of the noble attributes of our nature, all overlying a mine of first rate sense, and exquisite taste, make Mr. Hart one of the most agreeble acquaintances to form abroad. Thus much lor Mr. Hart, the geutleman. As a sculptor, he stands side by side with the best living artists; as a bust taker, he is unrivalled, not only among he stands side by side with the best living artists; as a bust taker, he is unrivalled, not only among Anicricans, but also among foreign sculptors.

The writer heard poor Bartholoniew, a short time previous to his untimely death, say of his countryman, Hart, that he stood a "head and shoulders" above all the hust takers of Florence

The praise of a noble competitor, whose genius

has given to the treasures of art so glorious a creation as his matchless impersonation of the "Mother of Mankind," is a compliment of the Some time since a number of noblemen met at the residence of Lord Shaftsbury, London, to consider the best mode of testilying their appreciastude the nest mode of testifying their appreciation of the philanthropic efforts of Doctor Southwood Smith, when, according to the "Court Circular," it was resolved, "That abust of Dr. Smith be presented to some suitable justifution, as an enduring monument of his eminent services in the promotion of public health." ed American sculptor. When we consider the number of distinguished artistes who fill the studies of Florence and the Eternal City, their unquestioned merit and high exteem by the English public, this compliment to Mr. Hart will send a thrill of pride to the heart of

every American.

In a plain, unpretending building in the beautiful Piazza Maria Antonia, is the studio of Mr. Hart. It is here that we met him for the first time. Before reaching his sanctum, we stumbled over large blocks of marble scattered in every di-rection over his work shop. In the center of the room, towering above all other objects, stood a huge mass of Carrara marble, cold and sbapeless as it left its uative quarry—the heary blows of the workmen had not rounded its sharp angles the artist's chisel had not yet impressed its genius upon the meaningless block. Some weeks later, satisted with the gorgeous churches and splendid galleries which render the floral city of Italy preeminent among the cities of Europe, we called again at the studio of our friend, just as the beautiful tracery, and leavened to the scale of the scale. called again at the studio of our friend, just as the beautiful tracery and lacework of the peerless Campanile was reflecting from its soft mellow tints of marble mosaics the declining glories of an Italian sun. The roseate lues fell through the half contained window of the studio, and tinged with the glow of life the marble limage of our immortal Clay. It stood before me as if the marble of the grains of sculpture had never the marble of the grains of sculpture had never the marble of the grains of sculpture had never the marble of the grains of sculpture had never the marble of the grains of sculpture had never the marble of the grains of sculpture had never the grains of sculpture the grain of the grains of sculpture had never the grain of the grains of the grain the wand of the genius of sculpture had passed over this hitherto meaningless block and magi-cally called forth the semi colossal figure of our beloved countryman, in one of his happiest and most graceful attitudes. This statue, when com pleted, will be, we think, Mr. Hart's chef-d'œuvre,

SELBY HARNEY, Secretary. A Tiger Captured in Bourbon County. NEAR MILLERSBURG BOURBON Co., Kr.,

Sunday evening, Nov. 28, 1858. GENTLEMEN: I have just returned from quite an exciting scene; the quiet of our neighborhood having been disturbed by the discovery of a large and ferocious tiger. However startling and incredible it may appear to the citizens of Bourbon, it is nevertheless a reality. He was first seen by a black boy, on the farm of Mr. William Turner, Sr. The alarm being given some fifty or sixts of the black boy, on the farm of Mr. William Turner, Sr. The alarm being given, some fifty or sixty of the neighbors (white and black) soon assembled; armed and equipped, and gave chase to the rapaci-monster. He was pursued near a half mile by the dogs, to the forks of the cane-Ridge road. Stopping at this point he concluded to give battle, and after fighting with desperation for a long time, was finally captured.

It was the great desire of all to save the Asiatic intruder's life; indeed, we were all of the opinion that he was only nartially disabled and seat for a

Dead Man Picking Himself Up—A Ghost Bringing his Bones from Hartford.

The spiritualists of this city, or a portion of

The story is related substantially as follows:—
When Dr. Redman, the partner of Dr. Orton, in
Twelfth street, New York, was a medical student,
a body was to be dissected upon a certain occaon; and the students agreed to draw lots to dermine which one should have the bones.

Orton requested him to bring the remainder of it to the office; whereupon the ghoat who once owned and occapied the dilapidated and abused tenement, set up a loud knocking, and claimed the right, which no reasonable man could deny bim, of having a word to say about the disposition of his bones.—

This extraordinary determination, which, we believe, has no parallel in ghostology, ancient or modern, it is alleged, is being carried out. The very next day after it was announced, a bone dropped on the sidewalk, in front of the two doctors, near their hunse, and since that time from the ceiling and sometimes upon the walk.— On the 25th of May the ghost did an nunsual good day's work. As the doctors were crossing Broadway, near Thirteenth street, at 3 o'clock, P. The State of Affairs-Necessity of Intervention

By the steamship Tennessee we have the fot-

Our correspondent writes with a free pen, and not the country and the borders and the form of the country and the borders are the following the country and the country and the country are the country and the country are the country and the country are the country are the country and the country are the country are the country and the country are the country are the country and the country are the country and the country are t f the country and the hopelessness of any lm-

provement to be looked for from the success of either of the contending parties, but boldly indicates the policy which, in his opinion, our government onght to adopt and energetically carry out, in view of our position as the predominating power on this continent.

The question of "What shall be done with Mexco?" is looming up, and unless we sadly mistake the signs of the times, will very quickly be the most important one pressing on the public attention. In our view, therefore, the letter of our correspondent possesses much interest, and we call to it the attention of our readers.

The consequence is that these people, ever since their independence, with the name of a Republic, have been living in a state of half vassalage, un-der the sway of the Spaniards here, and in that the greatest kind of exertions are triade to prevail on the Europeans to put protectorates here; they are waging a political war on us in our very teeth, and the Union tells us to let them contrine. We,

therefore, repeat a gain, that we have these three countries as enemies at present; that if we do not do something very soon, the European governments must. We cannot appear the colored left as but to place a protectorate here at once, which this century can pay for. English, however, for the present, from Your obedient servants,

The ghost commenced picking himself up sometime in spring. Whether he is yet done is not stated; but the Telegraph of this week brings additional testimony, in the shape of an anonymous statement, (regarded as conclusive by many spritualiats,) the substance of which is contained in the following paragraph:

The Inspector Question.

Our city fathers will again consider the tobacco inspector question to-night. This may be fine fun for ludicrous councilmen, but it is a very serious hurt to our tobacco interests. Louisville is too great a tobacco mart to be thus trifled with. If Col. Bayles is not competent for the office of inspector, why did the legislators who are now quarreling over the subject appoint him? Why did they not inquire into his fitness for the place before they elected him? It is a burning shame for those who have in charge so great an interest as this is to the city, to act so much like silly, factious, and reckless children would about a game of ball.

It has been said by the friends of Col. Bayles, that a fair opportunity has not been given him to test his capacity as inspector. Is this true? If it is, the Colonel ought certainly to have a chance to show so little capacity, for it does not require much genius or experience to pull bundles of tobacco from different parts of a hogshead. The object of the inspector's office is to have an honest man stand as sampler between buyers and sellers Very little brains or experience will suffice, provided there is bonesty

This war about the inspector's office looks very like a baitle waged by different ones who want to fill it. The real interest of the seller or buyer has but little to do with the conflict. But we hope that we shall hear no more of it. Let it be settled tonight, and pass from conversation upon the streets, where the farmers who have tohacco to sell hear it, and from the newspapers, where they read about it. Our tobacco trade is too important to be thus trifled with. It is worth more to our merchants than all the legislation ever done by some city fathers now quarrreling over this matter-yea more than they will do in all their lives, if they live to be as old as Mathuselah. They ought to be ashamed of themselves for getting up such a fuss about this matter. As it is a Know Nothing fight, our say-so will have little or no influence, but whether it does or not, we want the matter settled. If our Know Nothing rulers can't find enough to quarrel about without this burting so great an interest as our tobacco trade, let them stand aside and give the Democrats a little brief authority, and, our word for it, a good tohacco in spector will at once be appointed.

The Gubernatorial Race in 1860.

There are a number of candidates who are pirants two arc far ahead of the others. These are Hon. A. Gallatin Talbott, of Boyle, and Beriah Magoffin, of Mercer. They seem to be favorites in verious parts of the State, and more county meetings have declared for them than for all the other crudidates combined.

When we made our last summary, ten county neetings had instructed their delegates to vote for Tulbott in the convention. At the same time eight counties had instructed for Magoffin. This put Talhott ahead by two counties. Since that time the Fifth and Sixth Wards of Louisville have held a meeting, and recommended Talbott. The case now stands, Talbott eleven, and Magoffin

With so many delegates instructed to vote for these gentlemen, they will go into the convention with decided advantages. A solid phalanx will come up to the support of each of them, while the forces of other captains will be scattered. Of course no one can tell what a month will bring forth, but as the case now stands, Talhott leads in the race for Governor, and Magoffin follows immediately after.

From all that we can learn, the convention will be the largest ever held in the State, when the legislature was not in session. There will be more counties represented, and more representatives from those counties. Almost every meeting that has been held has appointed a long list of delegates, so as to insure the attendance of uum-

The convention will indorse the administration of James Buchanan almost by acclamation. Considerably more than a majority of the counties in the State have already indoised the administra tion, and of course their delegates will do like wise in the convention. There will he no trouble at all upon this subject, if the meetings already held indicate anything at all.

I can, therefore, with great propriety, urge the county, for nomination to the oflice of Register of

the Land Office.
I testify to that that I do know, when I say that he is admitted by all who know bitm, to he emi-nently qualified to fill the place indicated. He has a superior mind; he is a man of varied acomplishments; he is a good lawyer; he is an ex-ellent clerk; he is a practical surveyor; he is a

We believe that there cannot be found in the State a man in whom there is combined the necessary qualifications for the other indicated, to a greater degree than is possessed by Maj. Bowman.

For more than thirty years past, Woodford co.
has voted, by large majorities, against the Democratic party, yet he has three times been elected
by the people clerk of that county, (the only office
hy the way, that he has ever asked at the hands
of the people.

the people). He is a Kentuckian by birth. His grandfather as a Kentuckian by birth. His grandfather was one of the pioneers of the State, and his father's name fills no ordinary place in the history of this commonwealth, as a soldier and a legislator. We helieve that our party will best subserve the public good, and advance its own interest by making qualifications peculiar to each office a test with the candidates for preference in the

Attorney General-R. W. Woolley. The Ashland Kentuckian speaks in the following terms of its preferences for R. W. Woolley, who was tendered the appointment of Secretary of Legation to Spain, but declined it to remain at home and make the race for Attorney General of the State, according to the will of the Democracy who, having failed to elect him in 1856, desire to confer this honor upon him now:

We feel little disposition to show preferences respecting any of these gentlemen, but will remark, respecting the candidacy for Attorney General, that in our opinion no man can be better qualified to fill that office and perform its duties seeking the comination of the 6th of January than R. W. Woolley, Esq. He has, for many years past, held an enviable position, upon the foundaion of his legal ability, and though comparativ by young, has planted his foot higher upon the ladder of fame than any of his catemporaries—Our personal knowledge of his eligibility to this or any other office within the gift of the people, induces us to recommend him as the most desirable candidate for the office of Attorney General.

[For the Louisville Conrier.] Register of the Land Office-Elijah Arnold.

OWEN COUNTY, Ky., Nov. 27, 1858. Editors Louisville Courier :- With much pleas are we have seen the name of our countryman, Elijah Aruold, presented in several papers as a candidate for Register of the Land Office .a Democrat from his youth—cnergetic and true and if selected by the 5th of January convention as the nominee for that office, he will, if elected, not only make a most excellent officer, but election will add strength to our general ticket.

No one is better qualified for the place, or would more faithfully discharge its duties.

DEMOCRATS OF OWEN.

LEXINGTON AND BIG SANDY RAILROAD COMPANY AGAINST J. W. FRY.—The suit of the Lexington and Big Sandy railroad company against the executor of James W. Fry, which has been peuding in the Greenup circuit court for several years has at last been decided in favor of the railroad

has at last been decided in layor of the company.

This suit was brought by the company to euforce the payment of about \$3,200, subscribed as stock by Mr. Fry, in 1852, to the capital stock of the company. Subsequent to the subscription, the road, as originally located, was changed so as to strike the Ohio river hottom where Ashland is situated. This change caused a great deal of complaint among the stockholders at Catlettsburg, and many of them have refused to pay their stock in consequence thereof. In consequence of this refusal, suit was instituted against Mr. Fry and others, to enforce the payment of Mr. Fry and others, to enforce the payment of their subscription, and the case here referred t

s the first one which has been decided. We suppose now, as the court has decided that the change made in the location of the road at the eastern end does not exempt the subscribers from he payment of their stock. those who have thu far resisted payment, will now settle up withou any further trouble. It seems to us that this would be the most sensible as well as ec course to pursue. Nothing is to be gained by fur ther resistance. We understand that similar cases have been tried in other courts, in which the same defense was made, and in every in stance the court has decided in favor of the road. This being the case, is there any good reaso why the delinquents at this end of the road shoul continue obstituate? We are assured, by person who are familiar with the affairs of the road, that if all the stockholders will promptly arrange the payment of their stock, the company can at once e relieved of a heavy indebtedness, and by pri dent management, be placed in a condition, phaps, to make such arrangements as to enable to continue to prosecute the work, or to place it in the hands of persons who would do so. Shall this great work he suffered to languish, simply because those who should pay their subscription will not do so.—Ashland Kentuckian.

BURGLARY AND HEAVY LARCENY, AND RECOVER OF \$10,000 WORTH OF GOODS.—The store of Mr. (Merchant, No. 441 Broadway, was entered by ha glars, early on Saturday morning, and robbed of silks to the value of \$10,000. The entranc was effected through the rear fronting on Merce street, and the hurglars were diligently engage in transferring their booty, which they had packe in sacks, from the store to a wagon, when they were surprised by policemen Reid, Roberts, and Quinn, of the eighth preciuct. On seeing the ofticers, the thieves jumped into the wagon and drove off, leaving their sacks and plunder. Two powerful crowbars and an augur, with which they had operated, were found in the store. One of the officers started in pursuit of the wagon, but ers started in pursuit of the failed to overtake it, and the burglars escaped. New Fork News.

We are constantly asked by those who have had their Grates reset with this improvement, why every one does not get it at once? We know of but two reasons or the delay: 1. Many persons have been deceived by patents and

The Jas. Montgomery arrived at New Orleans, Monday, and in the evening, with the Queen of the West, departed for the Ohio river. One fourth of the R. F. Sass was bought at Pittsourgh, by Capt. Wm. 24 Obadish C. Moss Original. Hads Firez for New Orleans.—Captain Tom. Wright, who is always right, and never wrong in his calculations, concluded to defer his departure to New Orleans with the High Flyer until this morning. He had a fine lot of passengers engaged, who could not be got ready until morning, and he knew that he would absolutely gain time by watting, as it gives the rise in the river time to run down, and cover the bare, and thus save all veratious delays on the way, waiting for water. Sam. Halliday, the clerk, will attend to passengers, and provide them with rooms.

The officers of the Alvin Adams started to Cairo, last ereaing, on the John Raine, to take out the boat. She goes to Memphis, and will leave that port, on Monday next, for Louisville. White and Wadash Rivers.—We learn by passengers from Indianapolis and from Terre Haute, that both these rivers are rising rapidly. White river was "booming," with the water entirely over the banks, in many places tearing through conra-fields—a perfect flood of waters.

The Mississippi river, at St. Louis, is rising a little, with another good rise reported in the The Missouri river is very low, and nearly all the boats in that trade are either laid up or

The Arkansas river is in excellent boating order, from the effects of recent heavy raine. The following we find in our St. Louis ex-hanges of yesterday:

Changes of yesterday:

The Anbry and York State came in collision, on Saturday evening, at Treelve Mile Island, and the former was damaged to the amount of about \$150. The Brunette and Pulladelphia went down the river on Friday last, at their best speed. The former passed the latter fairly, twice, under way.

Capt. Goll, fillet of the Challenge, relates a strange circumstance about the Excelsior, which is now on her way up the Illinois, with the hull of the old Uncle Sam and she was aground. Her captain was not aware of the fact, however. The was arround all night, and yet her officers believed she had been making remarkably good time all the while.

Capt. Harry I. Spotts, of the great Eclipse, was in the city yesterday, and we learn from him that the Eclipse will continue in the Memphis trade for the cotton season, as the Monday packet and then run to Louisville.

From Washington.

Washington, Dec. 1.—Our government has received from California full official accounts of the judicial proceedings of the Limantour and Almedan land cases, which have been decided in favor of the United States. The former claim is located in the vicinity of San Francisco, and, with its improvements, is supposed to cover \$40,000,000 worth of property, while from the Almedan mines, it is stated, that \$5,000,000 worth of quicksilver were taken during six years. The Attorney Genenal of the United States, with a view of bringing these long pending cases to a close, employed ing these long pending cases to a close, employe Mr. Stanton, of Pittsburgh, to prosecute them.—In the course of the trials the most stupendou frauds were exposed. Signatures of Bocenegr and other distinguished Mexicans, were obtained to the apparently genuine titles, but the docu ments were ante-dated, as was necessary to con summate the ingeniously contrived deception— Much skin was shown in forged seals, on which the cheat was established. Eminent jurists con-sider these the most important cases on record involving the titles to lands, while the extent of the forgery, all things considered, is withou

Through the effects of the State Department for an amelioration of the duty on flour in Brazil, as imperial reduction of 30 per cent on the former tariff has been obtained. This is considered an important concession, from the fact that there was heretofore a large balance against the United States, on account of the extensive important of coffee, but it is now supposed that our exports of flour to Brazil will very considerably diminish f flour to Brazil will very considerably dis the draft of specie from this country, which, it represented, has, through an urrangement of trade, been diverted into British channels.

Advices from Costa Rica, from an official source, appress an earnest disposition to enter into ar-angements for the settlement of the claims of he United States against that Republic. Lieut. Warren, who made explorations and sur veys, hus prepared a map (which will soon be printed) of South Platte and west of the Missour ountry, including the gold regious.

OFFICE LOUISVILLE COURIER, WEDNESDAY EVENINO, Dec. 1. }
We mark considerable activity in the general market. which will now be greatly increased with the full resumption of navigation. The supplies of merchandize and groceries are quite fair, if not abundant for the sesson, and sales of the latter are quite setive. The hog killing and pork packing season is now in full sway and the market is very firm at an advance upon former quotations, with very large receipts. Sales during the week have been heavy in the country to packers or tbelr sgents, at 4% @5c gross for heavy legs, and \$6 25 to \$6 75 nct delivered in pen. The market is maintained, with, however, no transactions reported, the packers continuing busy in the slaughter of hogs under contract, the receipts of which are not only heavy, but more than double that of any previous year at the same RECEIPTS BY THE RIVER. period. If they continue to come forward in the same ratio, the packing around the falls will reach 300,000 head in two weeks more, and the season close nearly s month sarller than ever before. The hogs for slaughter "have been counted," and the packers set down the result at a little less than 800,000. Be that as it may, the high prices which now prevail are likely to force every available hor to the slaughter, and we would not be surprised if it exceeded our estimate. The prevailing quotation for heavy hogs is \$6 50 net, and we do not bear of any pressing on the market, by which it may be

nferred that they are engaged or taken on arrival. The number of hogs killed by our packers, including New Albany, as the product there is all controlled here, up to this evening, has amounted to fully 156,000 head, with 26,000 hogs left over in pen, which makes the actasi receipts to date, sum up 182,000. Tills is a large excess over the previous year, and considerably ahea of Cincinnati this year, by which it is clear that ours is the leading pork mart, and no doubt it will so continue There are 10 packing houses around the fails, all under able and liberal management. The supplies at almost all the other leading pasking points are falling off, which together with the ascertained fact that the northern hogs are both small and lean, has cause I the unexpected sdvsnce in prices, which are likely to be maintained until the close of the season, much to the advantage of the purchaser, but greatly to the detriment of const ers, and no doubt high prices of pork and bacon will materially restrict consumption. The corn crop by some sudden, unacconntable transmutation has suddeniy turned out a short one, almost everywhere, instead f belog unusually prolific as was anticipated early in 1 at 7 50, and 1 at 7 55. the season. At Cincinnati, speculation and sompetition among buyers has run up the price of heavy hogs to 70 net, though light ones were quoted freely at 6%c. The speculative movements in provisions have been chiefly mess pork, of which 20,000 bbis sold during the week for December, January and February at \$17. Yesterday about 1,000 bbis sold for present delivery at \$17, and one small lot brought \$17. 25. The weather up to the very close of the month con inued dark, lowering, wet, and gloomy, but yesterday and the night previous it had cleared off bright, and bracing, the first clear day and night for nearly two onths. The weather continues freezing cold, some thin ice having been made, but it was cloudy again to-day and we may have snow or rain. The river has comnenced rising, with a coal boat tids at Pittsburgh, and the tributaries all swelling, which will make a good stage f water all along the Ohio, and make the rates of freight easier.
